FRONT RANGE GRASSLAND FIRE WORKSHOP

8:00 am to 5:00 pm

[Information and
Registration here](https://gpfirescience.org/event/front-range-grassland-fire-workshop/)

<https://gpfirescience.org/event/front-range-grassland-fire-workshop/>

Located at the historic
Dickens Opera House

302 Main St
Longmont, CO 80501

REGISTRATION ENDS MAY 15 • SPACE IS LIMITED • REGISTER SOON

In Colorado, the Front Range can present unique fuel and weather conditions for wildfires. Combined with numerous wildland/urban interface and intermix settings, these conditions can be critical in wildfire management.

Register now for the Front Range Grassland Fire Workshop to increase your knowledge and understanding of the ecology, behavior, risks, and management of grassfire conditions on the Front Range.

Hear speakers from both the Front Range and the Great Plains to discuss grassland fire ecology, history, current conditions, prescribed fire and management for urban, rural, and intermix areas.
