

Ignition Operations

February 11-13, 2025

Ord, Nebraska

This 16 hour NWCG course will be tailored toward prescribed fire applications. Participants will have the opportunity to share in a learning environment with fire practitioners representing other agencies and organizations and learn and discuss material related to:

- Firing Devices
- Firing Patterns
- Firing Techniques

This course will involve two days of classroom training and one day of live-fire field exercises (weather permitting).

Participants will receive a certificate for completing ***S-219 Ignition Operations***. The course, course materials, and lunch will be provided to participants at no charge. Participants are responsible for arranging their own lodging and evening meals.

To register or inquire about the course, contact Ben Wheeler at 308-750-2652 or email at Ben.Wheeler@Nebraska.gov with "S-219" in the subject line.

Registration is limited to 25 participants!

Deadline to register is January 31, 2025.
